

Załącznik do pisma rozliczeniowego

Załącznik do pisma rozliczeniowego dotyczącego projektu **2017-1-PL01-KA201-038799**.

Podsumowanie oceny jakościowej

The report reflects and covers all the relevant issues. On the basis of the included data, one can agree that the project objectives and goals have been reached and so has been reached the educational added value. The concept and topic areas are very interesting and relevant to the target groups, and they have been realized in a very efficient way. The project "Polish school abroad. Supporting in-service training for teachers of Polish overseas communities" has proved its value through the means of the implemented methodology. The results like e.g. "the teacher training programme, the resource pack and e-learning courses" can be used and implemented with no limitation. The project team and cooperation arrangements have proved to be effective in spite of the indicated in the Report difficulties. The partner organizations have had visible contributions to the project with their unique experience. One can see a leading role of the coordinator which helped the partnership work on the assigned tasks of the project. The impact on the project participants and the participating organizations is evidencebased, it is adequate to the scope of the project. The dissemination activities are diverse and appropriate and so is the sustainability of the project, once we consider limitations caused by the pandemic situation. The partnership decided to continue the project aims within a new and already approved project of the Call KA201 2020 which is a very positive outcome of the already finished project.

Z przyjemnością informujemy, że Państwa projekt został uznany za **przykład dobrej praktyki** i może służyć innym organizacjom jako źródło inspiracji.

Narodowa Agencja dziękuje Państwu za współpracę przy realizacji projektu.

Z poważaniem,
FUNDACJA ROZWOJU SYSTEMU EDUKACJI
